

In order to be accepted as a trainee in the wards and services of Toledo Health Centres, it is compulsory that candidates are free of contagious diseases. Therefore they need:

- A certificate telling that they are no carrier of transmissible illness.
- A recent certificate of immunization for hepatitis A and B.
- Vaccine certificate for measles, rubella, mumps and virus.
- Recent proof (not older than 3 months) that they are TBC-free:
  - Negative tuberculin test 5PPD°.
  - Negative X-ray examination of the chest.

The medical certificate should be signed by the due Health Authority (medical doctor, preventive medicine department, etc.).
